PROJECT EXPERIENCE

Second Memory — Offline-First Personal Organizer App *September 2026 – Present*
- Built an offline-first organizer app in JavaScript with undo/redo, a Python sync server that keeps conflicting edits instead of overwriting them, and over 500 automated browser checks.

TripNest — Offline-First Trip Planner *October 2026*
- Built a trip planner in React and TypeScript with time-zone-aware itineraries, shared expenses that split to the exact cent, and merging of trip files between phones, backed by over 300 automated tests.

MealMate — Meal Planner, Grocery List & Budget App *October 2026*
- Built a meal-planning app (React, TypeScript) that turns the weekly plan into a consolidated grocery list and tracks spending, with encrypted device sync through a Cloudflare Worker and 320 automated tests.

StoryVault — Private Writing Studio *October 2026*
- Built a local-first writing app (React, TypeScript, Node.js) that imports manuscripts from Word and other formats, checks each import word for word, and exports to DOCX, PDF, and EPUB.

MTG Collection Tracker — Card Collection & Value App *October 2026*
- Built a collection app (Next.js, TypeScript, SQLite/Turso) with live card search through the Scryfall API, cached price history and alerts, and a daily scheduled refresh on Vercel.

Our Family Budget — Household Budget App *September 2026 – October 2026*
- Built an offline-capable budget app in plain JavaScript that keeps devices in sync through a private GitHub repository instead of a server.

Michelle Feliciano — Portfolio *September 2026 – Present*
- Built and deployed a responsive, accessible GitHub Pages portfolio using HTML, CSS, and JavaScript.

EMPLOYMENT

Store Manager

Great Clips • Argyle, TX *July 2026 – August 2026*

- Supervised a team of 7 employees while managing scheduling, client records, and payment processing for a location serving approximately 250 clients per week
- Maintained accurate, confidential client and business records across daily operations, keeping scheduling and payment data current so staff could retrieve client history without delays
- Contributed to a measurable improvement in customer satisfaction, with positive reviews increasing by approximately 18%

Administrative Assistant

Brighter Image • Fort Worth, TX *January 2025 – June 2026*

- Processed approximately 6 cases per day and fielded around 15 client calls daily, maintaining accurate records across digital and physical filing systems
- Designed and implemented an improved filing system and a new process for collecting client photos and feedback, reducing time spent locating case files and giving the lab a single consistent source for client documentation
- Coordinated information flow between lab staff and office personnel to keep case documentation current and accessible

Sales Consultant

AT&T • Lake Worth, TX *July 2024 – October 2024*

- Assisted 8–10 customers per day, maintaining and updating account data across Salesforce and internal systems with accuracy
- Ranked #2 among store employees for consistently meeting and exceeding monthly sales quotas
- Processed service documentation, account changes, and payments under same-day deadlines, keeping records consistent across Salesforce and internal billing systems

VOLUNTEER EXPERIENCE

IT Consultant | Allie's Haven Animal Rescue | Fort Worth, TX | October 2024 – May 2025

- Updated and maintained the organization's website, keeping adoption listings and event information current so visitors and potential adopters found accurate information
- Assisted with social media integration to support outreach and engagement
- Provided general IT support for staff and volunteers, troubleshooting website, email, and device issues so the team could resolve problems without outside technical help
